

# How do I find my license key?

Gridinsoft Help Center

Check the purchase confirmation email you received after checkout (search your inbox for terms like Gridinsoft, license, or activation). You can also sign in to the Member Area and look under Licenses -> Manage to view your key and activations. Can't find it? Check Spam/Junk and verify the email used at purchase. If it's still missing, contact Support with your order ID and purchase email, and we'll resend the key.
